Assignment 10: To Read Analog Sensor Data Using ADC and Display Filtered Output

```
int sensorPin = A0;
float filtered = 0;

void setup() {
  Serial.begin(9600);
}

void loop() {
  int data = analogRead(sensorPin);
  filtered = 0.9 * filtered + 0.1 * data;

  Serial.println(filtered);
  delay(100);
}
```
