Assignment 3 :To Interface a Pushbutton Switch and Control an LED with Debounce Implementation.

```
int ledPin = 9;
int button = 4;

void setup() {
  // put your setup code here, to run once:
  Serial.begin(9600);
  pinMode(ledPin, OUTPUT);
  pinMode(button, INPUT_PULLUP);
}

void loop() {
  // put your main code here, to run repeatedly:

  if (digitalRead(4) == LOW) {
    analogWrite(ledPin, 100);
  } else {
    digitalWrite(ledPin, LOW);
  }
}
```
